People say that life's all waiting,
Maybe it is true.
But things that I think worth awaiting
Are holidays—don't you?

I love to sit in the shade of a tree,
To sit, and listen there,
Just listen to the forest sounds,
And breathe its pine-scented air.

The sun then shines upon worlds above,
I sometimes think that it must love
The great big earth that whirls around,
Or else its light could not be found.

Oh, Robin Redbreast, you have shown
Where I my key may find!
I'll sing and trill with all my might
'Till the sun once more has shined.

These verses are taken from *Star dust*, which was issued in 1929 as a Christmas booklet of poems by Margaret M. Banta, ten year old daughter of Theta's Grand president, Margaret K. Banta.

PRESIDENT'S MESSAGE

AFTER THE DIZZY WHIRL of rushing, with its mixture of unhappiness and joy, comes a time of calm. May I slip my message into this period?

As an organization we are, naturally, eager to progress as rapidly as other organizations of our type. In order to do this the sister chapters of our fraternity, college and alumnæ, must join forces in a splendid spirit of coöperation. Can we not make 1930-1931 the banner year in Kappa Alpha Theta? Cannot our chapters, with the Grand council, perform a reciprocal duty in efficiency and harmony of action?

Though we are but a cog in the wheel of the mighty fraternity system, we have our definite place in its functioning. Relentless criticism of our selected groups persists. Let our chapters, national and international, so conduct themselves that our organization may be a force in tearing down the mountain of criticism—in building up continents of pleasant comment.

It is my wish for each of you that you may be a benefit to the fraternity, that the fraternity may be of benefit to you. With one hand on the sane past, the other stretched out toward a progressive future, let us face the coming year!

MARGARET K. BANTA

New Officers

THE NEW Grand president needs no introduction to the fraternity, for she, Mrs Banta, has just stepped up from the position of Grand vice-president, which position she filled so ably that every one knows she will make a fine and able leader as Grand president, too. Her "latest" picture, you'll find along with her presidential message which opens this issue.

MRS ARLINE SMITH WRIGHT

This is Mrs Wright, who after experience gained as president of District V, takes up the work of Grand vice-president. Mrs Wright has been intelligently interested in national affairs since 1922 when she was Alpha Mu's able convention delegate at Lake Placid. She has an unusual flare for making friends. Every girl in her district knows Mrs Wright as a personal friend; many other Thetas were equally favored through convention acquaintanceship. That as extension officer she will make friends for the fraternity among colleges and ambitious groups is a certainty.

MRS PURD B. WRIGHT, JR.
Grand vice-president

*It may be your room-mate, or your college room-mate's daughter,
whom the S-H-O-W-E-R will keep in college*

MRS PAUL KIRCHER

MRS PAUL KIRCHER
Alumnæ Secretary

Convention increased the size of Grand council by making the Alumnæ secretary a member, with the impressive title of Grand alumnæ secretary. All of convention felt that such a title, as well as Council membership, would fit Mrs Mecklin who has so ably organized the fraternity's alumnæ work. But united voices were not sufficient to persuade Mrs Mecklin to continue in this office, and so, fortunately, convention elected Mrs Catherine Planck Kircher as the first alumnæ secretary to be a council member. "Mrs Kircher looks like Mrs Mecklin. Are they sisters?" was asked often in Toronto. The resemblance is marked, but they are no relation, except sisters in Theta.

Though to many Thetas it will not seem like the same fraternity with Mrs Mecklin retired to the ranks, all welcome Mrs Kircher, whose active interest in national work has been keen since she represented Delta as an undergraduate delegate at Minneswaska, and later was the District president for District II. She returns to active fraternity work, with a zest and a spirit of cooperation that will assure the alumnæ work steady progress.

Mrs Grasett, Grand treasurer, and Miss Green, Grand secretary, were reelected to those offices. Mrs Moore, the Grand president, who was unwilling to continue her work as leader, retires with the appreciation of all for her services during the last biennium.

LOIS LUCKHARDT CARROLL

MRS. CURRY CARROLL, JR.
President of District V

The vacancy in the presidency of District V, caused by Mrs Wright's election to Grand Council, has been filled by the appointment of Lois Luckhardt Carroll (Mrs Curry, jr.). Mrs Carroll is well fitted for this office. She attended Lindenwood college from 1921-1922 and was graduated in Violin Cello. She then went to the University of Missouri and received a B.S. in education in 1926. While at the university she entered in many major activities and was Theta house president her first year, chapter president her second year, and attended the 1925 District convention at Troutdale as Alpha Mu delegate. As an alumna she served as secretary to Alpha Mu alumnae association in 1926 and as its president in 1927. She was elected secre-

tary of Lincoln alumnae in the spring of 1930, Lincoln having been her home since her marriage in 1928 to Curry Carroll, Sigma Chi, Washington university.

Frances Duysing Gilges

To Toronto conventionites, to Thetas of the Chicago region, and to many others, especially those from Texas, the face above is that of a loved friend—Sue King Willson, the new assistant editor of this magazine, appointed by Grand council to this position.

Sue King started her college career at Mills college, then went to the University of Texas where she became a member of Alpha Theta chapter of Kappa Alpha Theta.

Her professional journalistic experience was with the *Dallas morning news* and *Dallas dispatch*. She was a membership and publicity secretary for Y.W.C.A. and conducted the publicity of the Dallas community chest.

Before her marriage and removal to Evanston she was connected with Dallas alumnae chapter, and since moving to Evanston has served that alumnae chapter as convention delegate, and as president.

SUE KING WILLSON

Silver Shower

THIS being my last year in college and being chapter president, I really must go back some how. Conditions in . . . are very bad, much worse than anticipated when I went to convention and planned to return to college this fall."

"Father's financial difficulties make it impossible for him to send me back to college. Had this been known sooner I would not have taken on the definite campus responsibilities I have in Mortar board and the Theta house. I feel it is essential for me to return . . . so I am asking for a Theta loan."

The quotations are from letters received from two of the 39 Thetas asking for Loan and fellowship fund aid between August 1 and September 22. The amount needed to meet these requests was \$12,630.00. The fund's bank account, plus an emergency loan from the Endowment fund, made possible the sending of the installments needed for first semester. But—to meet the second semester installments on these loans, \$5,000.00 must be found by January 15. Where is it to come from? Confident that Thetas will supply an answer to that question, even in these hard times, loans have been promised.

Never before—not even in war times—has the fund needed so much money. Every week brings more requests for loans, so much more than \$5,000.00 *must* be found *if* all eligible Thetas receive the loans they need.

In war time Kappa Alpha Theta financed the equipment of a Red cross unit, and sent one worker to France. How? By a pro rata call for gifts of one dollar per Theta. And so—NOW—we propose to meet this Loan and Fellowship fund emergency by a S-I-L-V-E-R S-H-O-W-E-R. A dollar (it need not be a big silver cart-wheel) from every Theta, and every request this year for a loan can be met.

This S-H-O-W-E-R will differ in one respect from the war service fund. Every dollar will be a gift in perpetuity, for it will be loaned to the girls, who in their later responsible, prosperous years will return it to the fund to help more and more girls for ever and ever.

Send your dollar *TODAY*. Twice the absolutely minimum of \$5000 will be available if every Theta who gets this magazine will contribute to the S-H-O-W-E-R; and if each one who reads this will tell another who does not take the magazine, more S-I-L-V-E-R will pour in.

Who will send the first dollar? What chapter will S-H-O-W-E-R the fund with a dollar per member?

Let the S-H-O-W-E-R start this minute. A S-H-O-W-E-R of S-I-L-V-E-R for the aid of those ambitious Thetas, those fine chapter and campus leaders, who can stay in college—*only with our help*.

Winning a Prized Honor

VIRGINIA CUTHBERT of Mt. Lebanon, Pennsylvania was awarded by Syracuse university the Augusta G. Hazard fellowship, for excellence in painting. This fellowship provides one thousand dollars for a year's foreign study in painting. It is a yearly gift from Mrs Edith Hazard Forbes in memory of her mother, and is one of the most coveted honors at Syracuse university. Chi is proud that one of its seniors won this honor in June 1930.

"Ginny's" work is so promising that this opportunity for further study with the best of instructors will without doubt bring rich rewards.

When she sailed for Paris the last of October, the best and sincerest of Theta wishes for "Ginny's" further success went right along with her.

Comparative Costs of the Dormitory and Fraternity House

AGNES E. WELLS

Dean of Women, Indiana University

THE excellent material presented in the survey made in 1928 by Rochelle Rodd Gachet, an Alpha Omicron Pi, on the cost of Fraternity life and Fraternity housing has been of great interest to college administrators as well as to National Panhellenic congress members.

This short article will compare the construction cost per girl, for 1930, and the cost of room, board, and group dues in the dormitories and fraternity houses in eleven universities. It will also give the average cost of the fraternity houses for each group on the campuses from which replies were received.

At this time of the year, parents of freshman girls are anxious to have data on the cost of living at colleges. They are also anxious to know something about the adequacy of the housing at different colleges and how the buildings are constructed. In the middle west, experts

have estimated that the construction cost per girl for a fireproof building, should be about \$2,000.

Requests were made for data from 25 colleges and universities principally from the middle west. Replies from eleven colleges make available the following tables.

Table 1, gives valuable information about dormitories and fraternity houses, carefully prepared by the Deans of Women of the universities listed. The results show that the average fraternity girl probably lives in a house that is not of fireproof construction and that she pays a little more per year than does the dormitory girl. This difference of \$86.00 per year is however not an exorbitant amount to pay for membership in a National Panhellenic congress group.

Colleges and universities for the most part appreciate greatly the excellent support given by the National Panhellenic congress groups

in helping with the solution of the housing problem. The majority of the national officers of the National Panhellenic congress groups are now requiring that the new fraternity house be made of fireproof construction. The difference of \$676.47, between the construction price per girl of the dormitory (\$2,481.75), and that of fraternity house (\$1,805.28), probably indicates that most of the fraternity houses are not of fireproof construction.

Table 2, gives a comparison of the valuations of fraternity property for 1930, with the valuations for 1928 given by Rochelle Rodd Gachet for fraternity houses and furnishings in N.E. Central District. The differences may indicate that the houses constructed recently are of fireproof construction.

On the whole, the results of these tables indicate that the average construction price per girl for her college home is \$2,143.51, which compares favorably with the opinions of experts. It also shows that the average price for room, board, and dues in dormitories and fraternity houses (\$439.00), is well under \$500, which makes it possible for the average girl to accept membership in a National Panhellenic congress group without being a financial burden to her parents.

This article is published at the request of National Panhellenic's Publicity committee.

Mabelle Howe Mable

WHEN I think of Mabelle Howe Mable I remember not so much the silvery notes softly subdued to the marvellous singing of Cameron McLean, as that hot, lazy summer day in Washington, when I first met her.

My mother and I had gone to the train, and as the heat-oppressed

passengers drooped down the passage way, I wondered what she would be like. Nature has a way of playing tricks on artists—few of them match in appearance or personality the richness of their souls. Most of them had depressed me, and I felt a fear of meeting another, lest she but prove to be but one more of the anomalies of life.

The instant I saw her, I recognized a striking personality, a woman of charm. She came up to my mother, and in a low voice, rich as the 'cello notes of a Casals, she said:

"I am so glad to see you again, Mrs Jackson. And your daughter."
She turned to me.

"You are a Theta, too? Then we have something in common at once, have we not?"

Thus did I first come to know Mabelle Howe Mable; and the hours I spent with her convinced me even more surely of her artistry and charm.

Music is Mrs Mable's life and her first love. She told us:

"I can't remember when I decided to become a musician; in fact, I believe that I must have been born with the desire. My early years were steeped in music, since my father was a splendid musician. Even as a little girl of eight years, I was being pressed into service as an accompanist. Always while I dreamed of a musical career it was that of an accompanist."

Her dreams have come true. She is one of the best known accompanists in the country, and her tours with Cameron McLean have been continual triumphs. To hear them together is to witness a most marvelous example of that artistic cooperation and coordination without which nothing great in art can be accomplished. Mrs Mable is also a well-known coach and builder of programs for artists. In this work she has been able to bring her vigorous, sweet personality in full play, and many are the young students that have been inspired by contact with her.

It is no easy task to accompany singers. In concert solo work, one can forget others, and express one's feelings with total disregard for any but oneself. But to be a good accompanist, one must not only memorize a great number of pieces, but interpret every mood, every gesture, every thought of the singer. Someone has said that only those with a deep knowledge of human nature can succeed in this field of art, and Mrs Mable has proved the axiom true.

"It is most fascinating," she has said, "to sink your own individuality—to merge your musicianship with an artist's into a fine interpretation." And it is wonderful to see how marvelously she can catch with instant precision each change of mood of those for which she plays.

The repertoire of an accompanist has to be enormous. It has to be the sum total of all the repertoires of all the artists with whom she works, with allowance for duplication. And each song is memorized thoroughly, a feat beyond the ability of many musicians. Mrs Mable has one of the largest repertoires of any accompanist, and we asked her how she acquired it. She told us:

"To learn a song so that you can 'feel' it, requires intensive study. It is a strange process. I play it over and over, first with the music before me, and then without. At last, the time will come when, as my hands fall from the keyboard, I will know I have it. Something

happens to me inside, and I can feel that it will never leave me. It comes all at once—that feeling, and once I have it, I know that as long as I live, not a note in the entire piece will ever escape my memory.”

So much the music lover is Mrs Mable that she urges girls with talent to follow her muse. She has written, “I have found my career satisfying and worth while, and I feel that any girl who loves music and is willing to work long and hard enough will do well to choose music as a career.”

Mrs Mable is not only a musician. Hers is a many-sided personality. Second to her music—or shall we say, equal to it?—is her family. Her eldest boy, Edward, has created and developed the marionette Tatterman company, second in size only to those of Tony Sarg, and has several companies in Chicago, New York, and all over the country playing his creations. The artistic temperament of the mother has been carried to the sons, and her influence over and care of them has been all that mothers with no careers could give.

This tall, dignified woman whom we met in Washington left a lasting impression on me, her younger Theta sister. It was not alone her artistic ability, as expressed through the medium of the piano; nor was it her rich, vibrant voice which talked so interestingly. It was because Mabelle Howe Mable is a distinct personality, a woman among women, an artist among artists that we in the Capital City learned to love her and be proud that she was a sister in Kappa Alpha Theta.

ELIZABETH W. JACKSON, *Beta Lambda*

[Mrs Mable is a member of Chi chapter, having been initiated during her college days at Syracuse university, 1899-1901.]

EPITAPH FOR A NATURALIST

Here lies one who loved to walk in cold deserted fields;
Who followed winter paths in search of spring;
Who braved the power the icy north wind wields
As he doth over earth snow's blanket fling.

His friends all feathered creatures seemed—
The starlings, sparrows, chickadees.
Squirrels, woodchucks, chipmunks, deemed
His bounty manna in the winter freeze.

Under myriad stars his body rests
Though god he was to those small friends of Pan;
They loved the kindly hands of friendly guest—
We loved the gentle spirit in the man.

CAMPUS LEADERS

LOUISE CARROTHERS, "Nebraska Sweetheart" at the 1929 Kosmet Klub Thanksgiving morning revue, will reign as princess at the 1930 Revue. During 1929-30 she appeared in every Kosmet show and was in the chorus of *Sob sisters*, annual student musical comedy.

As a freshman her name appeared on the university of Nebraska honor roll, as ranking in the upper ten per cent of her class. As a sophomore she earned a straight 90 average.

What will she do as an upperclassman?

FOR THE FIRST TIME in history, a girl, Doris Powell, Rho, had the leading rôle in the Kosmet Klub musical comedy at the University of Nebraska last spring. Always before all characters had been impersonated by men.

Doris is an honor scholar, too, so, while still a sophomore, has brought twofold fame to Theta.

CAMPUS LEADERS

AMY AND MARY HOUGHTON, twin daughters of Dr and Mrs Henry S. Houghton, are members of Beta Omicron chapter, University of Iowa. They were born at Wuhu, China, on the Yangtze river. When they were twenty months old the family was forced to evacuate, and came to live in Columbus, Ohio, for about six months. Then they returned to China and lived in Shanghai five years. Amy and Mary spoke no English until they were nine, though they understood it. Returning to America again, the family lived in White Plains, New York, for nine months. There the twins entered school, but chicken pox ended their two weeks as students. Again back to China, this time to Peking, where a Russian noble-woman became their governess for seven years. During this time they added German to their languages.

The twins made their debut in Peking when they were sixteen. Before this they had been "kept in the nursery", except when they were traveling, but now they attended legation parties. In 1926 the family evacuated from Peking and went to Kyoto, Japan, where they lived in Japanese fashion for four months. Then they began to travel, visiting Java, Egypt, India—many different countries. They spent a year in Germany, where the twins attended Tochterheim at Munich for five months.

Dr Houghton became Dean of the College of medicine at the University of Iowa, and so Mary and Amy came to Iowa City for their last year in high school. They entered the university in the fall of 1929, pledged Theta, and were initiated. They made three point averages, so are not handicapped in spite of the fact that this was the second year they had attended school for any length of time.

The snapshot was taken by Mei Lang Fang, the most famous actor in China. The twins were wearing his costumes.

CAMPUS LEADERS

HELEN GOODYEAR, Beta Nu, was tapped for Freshman commission in the year 1926-1927 and elected chairman of the Commission, the highest honor a freshman can receive. As a junior she was president of her class; and as a senior held one of the most important offices on Florida campus, president of Judiciary.

PEGGY JONES, Beta Nu, as a freshman was tapped to serve on the Freshman cabinet of Y.W.C.A. Last year she was secretary of College government association, and this year vice-president of College government association and chapter vice-president. Peggy is active in athletics and a member of the "F Club". As one of the most outstanding girls on Florida campus, and yet only a sophomore—Theta expects great things from Peggy.

CAMPUS LEADERS

Tea for Eleven, the stunt given by Beta Rho chapter at the Post-exam jubilee of Duke university last spring. This stunt won first prize, as the best stunt on the program, and brought to Beta Rho the large silver loving cup, Y.W.C.A. presented to the winner.

Discoveries

THE OTHER DAY a Kappa Alpha Theta alumna with a new youthful light in her eyes said to us: "I have just been reading the new Theta History. And do you know, it has a picture in it of a certain nook near DePauw where we used to have our picnics . . . and I saw my sister's face in the group!"

"We mentally noted the gleam of light which will soon illumine the eyes of Alpha Phi alumnae when they see the pictures in our new book of themselves in either very long or very short skirts draped upon the steps of the chapter house, or riding in a 'horse and buggy'. . ."

(From the Alpha Phi *Quarterly*, September 1930.)

See yourselves as you were in college days, is one of the many things you are invited to enjoy in *Sixty years in Kappa Alpha Theta*. But all pictures aren't of people. Things of interest in the fraternity's history are also pictured, such as the first coat-of-arms, which in replica adorns the cover of this issue. And the text will tell you interesting stories about the pictures, and introduce you to many an interesting fraternity story that is not adapted to pictorial display.

One Theta wrote the editor: "I am thoroughly enjoying my Theta history and expect to loan it to other Thetas who have not yet bought one. Perhaps they will want their own, too, for it is certainly worth many times its cost." And one alumnae chapter wrote that the chapter had bought a copy of the history, which it would put in its archives when "all the members have read it"!

No one would want any one to be deprived of the pleasure and information gained by reading the history. But the Business staff will perish of worry if it can't sell at least the first edition, and so return to the fraternity treasurer the cost of the book. And if each copy sold is to become a lending library for all Thetas in the city, how many sales will there be?

Honestly, quite apart from our pecuniary interest in seeing the edition travel from the publisher to purchasers, we know that the book is important enough for each Theta to want her own copy, and it isn't a long step from wanting, to ordering, for the price is but three dollars a copy—and what Theta doesn't spend that much for a book now and then?

The book might well solve the Christmas present problem between Theta sisters!

The blank on last page makes it easy for you to order your copy.

Founders'-day Celebrations

THERE was a hushed silence in the great banquet hall of the Royal York. Her eyes tender with memories, little Mrs Browder, second initiate to wear the kite of Kappa Alpha Theta sixty years ago, rose to light the four tapers in the center of the speakers' table. As she looked out on that radiant roomful of faces gathered from every state in the Union, and two Canadian Provinces, representatives of nearly fifteen thousand living Thetas, she spoke in turn those four names so familiar to all loyal Thetas, *names* to us, dear friends to her.

What a privilege it was to share in this scene. We realized that the years were limited when this direct personal touch with the Founders of our fraternity could make an unbroken chain for the youngest convention initiate.

We live in a busy unsentimental age, but experiences such as this have their place. And it is in the interest of preserving that bit of fine sentiment that we are writing on the observation of Founders'-day.

Anyone who has watched the rapid growth of the fraternity in recent years, or who has experienced the almost exhausting affect of trying to know even a small fraction of the splendid delegates gathered at convention realizes the absolute necessity of strong ties to unite us in common purposes and understanding.

And so I take up my pen in a crusade for Theta's Day of Days. In the convention discussion of a proposed change of date, we heard of many difficulties in the way of universal celebration on January 27; but, if snowstorms and examinations do present problems on that date, queening and spring fever would have the same affect later.

There are many ways of observing the day. It is not the splendor but the spirit that counts, and the results of the convention round table may prove interesting. But before I start, let me explain that this report is not as complete as I would have it. The idea of writing it grew out of an informal report at the end of a long, hot afternoon of Alumnæ session on the Saturday of convention. The hurried notes scribbled, as hands were raised in that meeting, or, collected from passing alumnæ delegates as we rode in elevators or met at the dining room door, seem all inadequate now that I have settled down to the pleasure of reviewing them two months and several thousand miles away.

When Hope Mecklin wrote before convention asking me to lead this discussion, I had no idea of its formal use. Of course I could tell what we do on the Pacific Coast, but my other contacts were few. Well, I would work on the train. There would be Thetas from everywhere

there. I laugh now when I think of that innocent plan. Whoever heard of doing business on a Theta Special! We were "on pleasure bent," and I wonder what the few delegates I did manage to "interview" thought when they had to miss the scenes of Michigan's lovely green woods to answer my hurried questions.

Anyway, I found myself in that Alumnæ session quite unprepared, and determined to act as if it was meant to be that way. With pen and note-book I pressed my questionnaire in open meeting, and then Hope said, "We'll make this a magazine article."

This is what we found. Types of Founders'-day celebrations vary according to the geography and personnel of different groups. In many places several chapters combine to hold large banquets, alumnæ and undergraduates celebrating together. Next January we can picture these parties enjoying real Theta fellowship.

Probably one of the largest groups meets in Los Angeles, where that alumnæ chapter combines with Pasadena alumnæ chapter, Long Beach, Glendale, and Riverside clubs, and the college chapters, Omicron and Beta Xi. Theirs is a large evening banquet, usually at the Women's University club, where Jane Spalding, Phi, is executive secretary. Thetas come sixty miles from Riverside, fifteen miles from Pasadena, about thirty miles from Long Beach, and five miles from Glendale, to attend this event.

Other banquets where more than one college and alumnæ chapter meet are held by the St. Paul-Minneapolis alumnæ with Upsilon, alternating between the two cities on the Saturday nearest January 27; Kansas City, where Kappa, Alpha Upsilon, Alpha Mu, Topeka alumnæ, and Lawrence club sometimes celebrate with the local alumnæ; Denver with Beta Gamma and Beta Iota; Philadelphia, with Alpha Beta and Beta Eta; Columbus, with Gamma deuteron, Beta Tau, Alpha Gamma and Columbus alumnæ meeting at a formal hotel banquet; Pittsburgh, with Alpha Omega and some visitors from Mu; Chicago, where three alumnæ chapters, one club, Tau undergraduates and guests from Delta join in one party; Oklahoma City, with the two Oklahoma college chapters and local alumnæ; St. Louis, where Alpha Iota joins with the larger alumnæ group; New Orleans, with Alpha Phi; Des Moines alumnæ with Beta Kappa; Topeka, Kansas; and Wichita where 100 per cent of the local group attends; Champaign-Urbana, where the banquet is held at Delta's chapter house.

San Francisco and Berkeley alumnæ chapters always combine with Phi and Omega and the Palo Alto club in some large formal affair. For many years it was a luncheon at the Fairmont in the large dining room overlooking the Bay, which at once separates and unites this large district. Since the convention of 1926 this group has held evening

banquets at the new Mark Hopkins hotel, but this coming winter plans a luncheon again.

The luncheon idea prevails in many places. At Lansing, Michigan the luncheon is closed to all but initiated Thetas and includes a ritual service. This group includes Lansing alumnæ, Beta Pi, Albion club, and others from Grand Rapids, Detroit, and Eta chapters, who can accept the extended invitation.

In Indianapolis the local alumnæ chapter is hostess. All the college and alumnæ chapters in the state, as well as every Indiana alumna on the State chairman's list receives a card of invitation, so this gathering in the state of Theta's founding is a large one.

Other formal parties which are purely local are in Milwaukee, Buffalo, San Diego, Cleveland, Portland, and Spokane. At the Portland gathering the lighting of candles at each place, from those lighted for the Founders, makes an impressive feature.

In many places Founders'-day is observed in a less formal way. For instance, up in Burlington, Vermont, the alumnæ are hostesses to the college chapter at an informal supper party at the chapter house. Syracuse celebrates much the same way with Chi. When the Providence Thetas do not go to Boston, they hold an informal supper party, as do the members of Yakima alumnæ chapter across the continent in the state of Washington.

Lincoln alumnæ and Rho observe the day with a formal tea at the chapter house. Three groups combine Founders'-day with initiation; this being the custom in Seattle, Reno, and St. Louis.

Last year in Seattle one hundred and twenty-five Thetas gathered at the banquet in the Women's University club, including guests from Tacoma, Everett, and Bellingham. New initiates were guests of the college chapter. Mrs Estelle Riddell Dodge, fraternity historian, conducted the candle lighting ceremony at the 1930 banquet, and was presented with a life membership in Kappa Alpha Theta alumnæ as an appreciation of her achievement in writing the recently published history.

Two chapters have presented historical plays in connection with their observance of Founders'-day. Both the San Diego and University of Pennsylvania plays are based on a study of old letters in the archives and are effective means of preserving traditions.

Thus in many ways and many places will Thetas be gathering January 27 to do honor to those far-visioned women who gave us our ideals and purposes. If only television would let us all look in on each other! A few years ago in the San Francisco banquet we used a toast scheme of mock radio broadcasting. Some N. B. C. friends lent us a real microphone and pre-arranged telegrams poured in during the evening from

Theta groups and individuals up and down the Coast. It was fun and in spite of the pretence, it did give us the feeling of a larger group. Perhaps we could always work out some scheme of interchanging messages between banquets near and far, so that every one could realize the wide-spread significance of this our Theta birthday. And maybe this would start some rivalry in the amount of birthday pennies collected for the Friendship fund.

Anyway, our Theta map seems more alive and friendly when we can picture just where the others of us are for this international birthday party. I hope the ones who have been unavoidably omitted will storm the editor with tales of their parties so that everyone can know what every other Theta is doing on this day.

The financial stringency in the country has a back wash in the demands made on the Loan and fellowship fund this fall. More than 30 girls asked for loans, and the amount they needed for the year was more than \$12,000. To meet such unusual demands, the fund must find more money. Now is a good time to send gifts. Now is the time for those who have used the fund to try to help by prompt payment on loans. Now is the time for alumnae to devise ways to increase the fund more rapidly.

FLORENCE HEYWOOD TO QUIT LOUVRE

KNOTS of fascinated Americans will no longer move through the halls of the Louvre listening to the explanatory and descriptive lectures of Miss Florence Heywood.

The only regularly-appointed American lecturer will retire after her conference today. After ten years of service, she leaves her work for a long rest to enjoy the artistic beauties of other lands.

Miss Heywood has been an outstanding American figure in Paris during the past twenty years not only in her work as instructor of a touring public, but as the organizer of innumerable charities and for her many works on artistic subjects. She will now continue her writings and return to America for lecture courses after a vacation in Italy and Germany. She leaves Paris next week to join her aunt, Mrs Horace Williston, in Switzerland.

New York *Herald*, Paris edition, July 1930

Florence Heywood, known to all Thetas who have tarried in Paris long enough to be a guest in her charming home, and to many others through her books and lectures, became a Theta while an undergraduate at Stanford university.

ASTHMA MAY BE THE CAT'S FAULT

THE next time you find yourself coming down with asthma look for the cause in your own home instead of the climate," said Dr Zella White Stewart of Iowa City Wednesday afternoon to the members of the home and education department of the Des Moines Women's club.

Dr White, who is with the Asthma and hay fever clinic, was introduced by Mrs E. Paul Jones. Her topic was *Allergy: illness caused by sensitivity to foods, pets, household furnishings and pollens of plants.*

A NEW NAME FOR OLD ILLNESS

"Until within a very few years, asthma and its first cousin, hay fever, were regarded as distinct diseases of the respiratory tract," said Dr White. "Now they are recognized as symptoms of a systematic condition for which a new name has been coined,—allergy, which means an abnormal reaction to certain external stimuli."

"These sufferers merely react more violently than do normal persons to some one or more of the hundreds of things which most of us eat or inhale every day without discomfort. Such substances, always organic in their nature, animal or vegetable, never mineral, are called "allergens" or breeders of allergy.

CAUSE CAN BE FOUND

"Sufferers of allergic diseases of respiratory tract, hay fever, sinus trouble, bronchitis and asthma roam over the world, seeking new habitation where they may be free from their affliction. Often they do so free themselves, not because of change of climate but because of separation from things that caused their trouble. One thing is certain, climate and weather have but little to do with causing these symptoms.

"The cause can be found in every case, when the patient is tested thoroughly and the surroundings carefully investigated." Dr White said. Relief is permanent when all allergens are eliminated and proper treatment given over a long period.

Dr. Stewart was initiated by Mu chapter of Kappa Alpha Theta and later affiliated with Iota, going to Cornell for a pre-med course, getting her M.D. from the Cornell Medical College, New York city, in 1905. She has sponsored two groups who won Theta charters, Alpha Pi and Beta Omicron. She is the wife of Dr G. W. Stewart, well known physicist, head of that department at the University of Iowa.

ONE OF OLD ASBURY'S FIRST FOUR COEDS, MRS HAMILTON,
RECALLS EARLY SCHOOL DAYS HERE

MAY DAY at DePauw is indisputably her "Woman's Day." The rights of women students on the campus is taken for granted. The thought that there might have been a tremendous drama involved in placing women in the relative position they hold today occurs to very few. DePauw is old enough to have a history, and, more startlingly she herself has made history.

In 1867, the first four women were admitted to DePauw, then Asbury. Mrs Betty Locke Hamilton, of Greencastle, is one of these four. The story she tells of the struggle of these girls against the rest of the student body was too intense to be termed merely "interesting." DePauw was the first denominational school ever to have admitted women to the student body. This seems to have been a small concession because for years after opposition was so virile as to have discouraged anyone who tried to combat it. What all these women wanted was a chance to prove their worth.

At the time when Mrs Hamilton entered as a freshman, there were only two courses open to students, the scientific and the classical. To succeed in either field was a challenge to anyone. More than this, the girls had to enter as freshmen without having had the privilege of the four-year preparatory course offered to the men. Mrs Hamilton is the first woman to have signed up for the more difficult classical course, which included among other things, mathematics and languages.

There being no Greek letter fraternity for women at that time, Mrs Hamilton was instrumental in founding the first one, and in 1870, four girls made their appearance with Theta pins.

It has been Mrs Hamilton's consistent aim to make woman's place in the affairs of life, one of increasing significance and importance. We may say with assurance that her aim has been beautifully realized when we compare the

field of women's opportunities at the time she first became interested in co-education with that of the present day. Then there were only three professions for women,—teaching, sewing, and clerking. Today, there is nothing that an ambitious woman does not dare. She has entered practically every field of endeavor.

As a tribute to the pioneer work of Mrs Betty Locke Hamilton and the other three founders of Kappa Alpha Theta, the sorority established a memorial alcove in the DePauw University library, devoted to material on "Woman's part in industrial and vocational activities."

HOME IS STILL WOMAN'S CHOICE

Career Appeals Only Temporarily, Says Miss Steiner

It's not woman herself, but the winds of modernity which have played leap frog with that twentieth century problem—marriage or a career. Those two have executed a complete somersault in rank, and it's now the career which is classed as the port of protection instead of a home, a hearth and a husband.

Those are the views expressed Friday by Miss Gretchen Steiner, as associate in public relations for Grinnell college, where her father, the noted sociologist, Dr Edward A. Steiner, occupies the chair of applied Christianity.

Marriage Delayed

According to Miss Steiner the reason for the vast number of women now found in almost every economic field, is simple. She has a natural need, just as men do, and for the time being, at least, she has no alternative but that of punching a time clock. Men are no longer marrying at such an early age because they are then unable to provide the things which modern women demand. Therefore, in the interim—until John gets a couple of raises or Bill gets taken into the firm—she toils.

"Naturally, now that women have found they can compete successfully with men, they are unwilling to endure the privations which the early marriage of other days imposed upon them," Miss Steiner said. "Conversely, a man cannot ask a woman who is perhaps earning twice his salary to be his wife."

"I'll admit that it's true," declared Miss Steiner, who in her various experiences as dramatic instructor at Vassar, as member of Otis Skinner's company, to which at that time Cornelia Otis Skinner also belonged, and as director of several community theaters throughout the country, has come into contact with thousands of women who are doing notable things.

Women Discriminated Against

"Women are often discriminated against on the pay roll. But that's not altogether unfair when you leave efficiency out of the question and consider their instability."

In connection with that instability she pointed out that a feminine career nowadays no longer took on the aspect of a valiant crusade as it did in the time of George Sand. It is only a recourse until she discovers the preferable alternative—a truly compatible marriage.

Miss Steiner believes that, emancipation or not, it's a very rare woman who will not choose matrimony, felicitous matrimony, to any business position.

Home Still First Desire

"Most assuredly women are not becoming masculinized," she protested. "I think that the first desire of her heart remains what it has always been, a home and a family."

To personality alone, Miss Steiner ascribed that rarity, a happy correlation of marriage and a career. But she thoroughly scouted the idea that woman's increasing absorption in her job, whatever it might be, might eventually throw marriage as a social institution into the scrap heap. "They've merely turned over another leaf and found opportunity written on it, but I know few women who wouldn't throw over the joys of that page for the one that is titled 'marriage.'"

And then she amended it to "FORTUNATE marriage," and stressed the adjective.—*Des Moines Tribune-Capital*

Gretchen Steiner received her A.B. from Drake university, where she was a member of Beta Kappa chapter of Kappa Alpha Theta.

AN AMERICAN COLLEGE FOR WOMEN IN GENEVA

By MARGUERITE M. LUX '12, Assistant Director of the Progressive College for Women in Geneva, Switzerland

EDITOR'S NOTE: *Marguerite M. Lux '12, is the fortunate Syracusan to whose lot it has fallen to assist with the opening of a new educational project, an American college for women in the capital of the League of Nations which is patterned after the junior college in this country. Miss Lux has been a teacher of history and extensive traveler since her graduation from Syracuse in 1912. Following graduation she taught history for two years and then did social case work with the Charity Organization Society in New York City. From 1920 to 1927 she was head of the history department at Laurel School in Cleveland, Ohio, and after a year of travel in the Near East went to Mount Vernon Seminary, Washington, D.C. in charge of the college preparatory department. During the past year Miss Lux has spent most of the time in Europe.*

Miss Alice Mildred Burgess, who is to be director of the College, is a graduate of Mount Holyoke and Radcliffe. She has been associate head of the Mount Vernon Seminary.

WHENEVER I come back to Syracuse university I know that change and growth and development and progress are taking place—that something vital and important is happening which is to benefit not only the present but the future students who may choose Syracuse as their Alma mater. This development and expansion so admirably exemplified at Syracuse is finding expression in many educational centers of the world, and that development which we can see with the eye is far less of importance than is the progress of educational fields which is changing the relationship of teacher to taught, subject matter and student—in fact the entire question of what constitutes a true education. Some resist these changes—decry the new ideas and others welcome them and laud them as a panacea.

Don't fail to use the coupon on page 23

In connection with educational developments it may be interesting to some to hear something of the Progressive College for Women, which is to open this fall in Geneva, Switzerland. The plan is the outgrowth of an ideal, namely, to offer to American girls who may not wish a four-year college course in this country, the opportunity to attend in Europe a type of Junior college which will enable her to gain something much more fundamental than the finishing school offers. It is felt that students graduated from progressive secondary schools require a college experience equally progressive in spirit and it is the definite obligation of such a college to give its students an international outlook as one of the best mediums for preparing the modern women to take her place successfully either in the business or social world of today.

Geneva is in reality the pulse of the world, and as the seat of the League of Nations this city offers an opportunity to accomplish this in a very vital way. Here the undergraduate may attend the Assembly meetings and the League sessions—listen to discussions of world-old problems, still unsettled—and this fact makes them contemporary problems; she will be able to meet the most interesting men and women of the world as they come to Geneva on diplomatic missions of international importance or to participate in the international functions. International contacts are easily made—this experience is most pleasant as well as valuable.

The major courses will be taught by American instructors who have had experience in using progressive methods at the college level, instructors who understand the point of view of the American girl. Insofar as possible the subjects comprising the curriculum are correlated and the work of the American staff will be generously supplemented by lectures and discussions by professors from the University of Geneva, the Jean Jacques Rousseau Institute of International Studies, and by representatives of the League of Nations and the International Labor Bureau. In this way students will be brought into contact with both men and women teachers of high standing and reputation in their own fields of learning. Foreign language study will be emphasized. There are splendid opportunities for the study of music and art—the college studio work is to be under the direction of one who will bring to it the educational values of the art center of Vienna.

"A committee of sponsors as well as an academic advisory committee has been formed, made up of educators in this country and in Europe."

The American committee includes: Miss Gertrude Angell, representing the National association of principals of girls' schools; Honorable Newton D. Baker; Miss Mary Ashby Cheek, previously secretary to the Board of admissions of Mount Holyoke college; Dr Joel Hayden, pastor of the Fairmount Heights Presbyterian community church, Cleveland, Ohio; Dr Robert Leigh, of Bennington college; Mrs Arthur Lyman, principal of the Laurel school, Cleveland; Mr Morton Snyder, headmaster of the Rye country day school; Dr Donald Tewkesbury, of Columbia university; Professor Emeritus Charles E. Thwing, of Western Reserve university, and Dr J. Carson Ryan, of the Department of education, Swarthmore college, representing the Progressive education association; Eugene Randolph Smith, headmaster of the Beaver country day school, Brookline, Massachusetts.

You will not need to be reminded that Mr Eugene Randolph Smith is a Syracusan, who stands well forward in the Progressive education movement in this country and who is a trustee of the recently announced Abraham Lincoln

Foundation and university. The European committee also has its Syracuse representation—Mr and Mrs Darius A. Davis, who are well known to you all; it is their belief in the educational ideal of such a college as well as their interest and support that have given impetus to its concrete development at this time.—*Syracuse alumni news*

FORMER DES MOINES GIRL AUTHOR OF REGISTER SERIAL

"Vain Goddess," Starting Today, Written by Laura Lou Brookman

THE new story, *Vain Goddess*, starting today in the Fiction book of the *Sunday register* was written by a former Des Moines girl, Laura Lou Brookman.

This is the fourth of Miss Brookman's stories which have appeared in Des Moines newspapers. Each has been more popular than the preceding one. *Vain Goddess* is considered by editors one of the best newspaper serials ever written—such is the skill Miss Brookman has acquired in the short time she has devoted to creative writing.

Was "Working Girl"

Only a few years ago Laura Lou Brookman was rubbing shoulders with the rest of Des Moines "working" girls.

Each morning she awakened to the clangor of an alarm clock, made herself a hasty breakfast at her sixteenth street apartment and hiked off to her duties at the *Des Moines register*. There she served successively as reporter, copy reader, and for four years prior to quitting the newspaper game for fiction writing, acted as Sunday and daily feature editor.

Work Brought Out Ability

It was her responsibility as editor of the Sunday magazine that brought to light her ability as a writer. The *Register* needed a contest—something different. A master mind suggested a mystery story contest.

A complete mystery novel was to be written and the last chapter locked in the vault of a local bank. Then all of the chapters were to appear in the paper except the final one. Readers were to follow each installment and then submit the solution in the final chapter.

Prize Based on Similarity

The one that coincided most closely with the solution in the final installment locked up in the safety deposit box was to be adjudged winner.

The story had to have local situations and local settings. Prominent mystery story writers were approached. It was impossible for any of them to come to Des Moines and write a localized story within the time set before the contest must start.

Miss Brookman to Rescue

Miss Brookman came to the rescue. For about three days and nights she worked desperately. (It was a rented typewriter but it stood up under the strain.) The mystery story contest appeared on schedule—proved a grand success, not only as a contest but as a serial, and Laura Lou Brookman's future success as a writer was assured.

Her next two serials, *Heart Bandit* and *Playmate*, were written in Des Moines,

but since the winter of 1927-28 Miss Brookman has been making her home with her mother in New York city and Baltimore. All of her serials hold especial interest for Iowa people because they reflect Iowa settings and Iowa life.—*Des Moines Register*

Heart hunger, Miss Brookman's latest, is running serially in the *Columbia Missourian* and other mid-west papers, while she works assiduously as a member of the staff of the *Baltimore Post*.

"Laura Lou" was initiated by Alpha Rho chapter of Kappa Alpha Theta while an undergraduate at the University of South Dakota. Later she went to the University of Missouri to study journalism and affiliated with Alpha Mu chapter.

MRS STEWART TO BE MRS FISCHER'S SECRETARY

MRS DAVID STEWART of Denver has been chosen secretary to Mrs Helen Fischer of Boulder who was recently elected president of the Colorado Federation of women's clubs.

Mrs Stewart has for some time been prominent in women's club affairs. This year she won two first prizes in the poetry and non-fiction writing contests sponsored by the Denver Woman's club. Her three-act play *No Escape* won second place in the 1930 state contest. A story last year from Mrs Stewart's pen won a second prize in state-wide competition.

Mrs Stewart, a charming, cultured woman, is a graduate of Denison university, Granville, Ohio. She is an active alumna of the Kappa Alpha Theta fraternity and takes much interest in the affairs of the University of Colorado chapter. She is the wife of David Stewart who is well known in Denver financial circles.—(From a Denver paper)

TO BE SECRETARY TO MRS HOOVER

Helen Hartley Greene Given Position for July and August

HELEN HARTLEY GREENE, daughter of Prof and Mrs Charles W. Greene, will be private secretary to the First Lady of the Land during the months of July and August. Her appointment, at the request of Mrs Hoover, was recently confirmed.

Miss Greene was born in Columbia. She attended Goucher college as a freshman, the University of Missouri in her sophomore year, later going to Stanford university from which she has the degrees of A.B. and A.M. in physiology.

For the past four years, she has been secretary to Dr Gordon Balfour of the Mayo Clinic at Rochester, Minnesota. Previous to that time and just after her graduation from college, Miss Greene was assistant to the Dean of women at the North Carolina college for women at Greensboro, North Carolina.

While at Stanford, Miss Greene and Herbert Hoover, jr. were classmates, this being a continuation of the friendship of the two families, lasting over a period of thirty-five years, for her mother, Mrs Charles W. Greene, had known both President and Mrs Hoover while attending the same university.—*Columbia Missourian*, June 18, 1930

Helen Greene was initiated by Alpha Delta chapter, and later affiliated both by Alpha Mu and Phi.

MARY MARGARET McBRIDE, AUTHOR, DICTATES RATHER THAN WRITES

ONE of the interesting visitors in Kansas City last week was Miss Mary Margaret McBride of New York, who has been the guest of her cousin, Mrs James M. Kemper. Miss McBride formerly lived in Paris, Missouri, and attended William Woods college at Fulton before matriculating in journalism at the University of Missouri. She was on the staff of several New York newspapers before launching forth as a free-lance writer several years ago. Now she is an author of several books, in addition to being an established magazine writer.

Miss McBride, like most successful modern writers, holds to a rigid daily working schedule. She arises at 6 every morning when she is at home and immediately after breakfast begins assembling her material preparatory to the arrival of her secretary. At 10 o'clock the secretary arrives and takes Miss McBride's dictation direct on the typewriter. Together they work steadily until 1 o'clock, the author dictating as rapidly as the secretary's nimble fingers can transcribe the words. The rest of the day is spent in research. That this routine is good is indicated by the fact that, since last December 1, Miss McBride has written two books, one of these the biography of former Ambassador Morrow, besides fifteen magazine articles and special publicity work.

Miss McBride admits that sometimes magazine articles appear under one person's name, although actually written by another. The author who thus works under a cloak of anonymity has become known in editorial offices as a "ghost writer." Miss McBride believes she is one of the original ghost writers, as some of her first magazine articles were interviews in which a famous personage let himself appear to be talking and the article resulting was captioned, "As told to Mary Margaret McBride."

One of the first articles that brought Miss McBride into the magazine limelight was an interview in New York with Miss Anne Morgan, now president of the American Woman's association. Miss Morgan did not care to be interviewed, but Miss McBride persisted and finally won out. Then for fear Miss Morgan would be impatient at sight of the young writer's pencil and note-paper, Miss McBride sat behind a small table and concealed her note-taking hands under the table, never taking her eyes off of her distinguished subject. When this most unusual story appeared in one of the larger national magazines, Miss Morgan said to her friends: "She wrote all of that without taking a single note!"—*Kansas City Star*

Mary Margaret McBride is a member of Alpha Mu chapter of Kappa Alpha Theta.

GEORGE VAN MILLETT'S LATEST PAINTING OF HIS DAUGHTER

THE HOOKED RUG" is George Van Millett's new canvas, now on exhibition with fifty other paintings by the Kansas City artist in the Silhouette Studio, 212 Alameda road, Theater building, Country club plaza. Mr Millett's exhibition will continue until April 7. This has been a busy year for Mr Millett, judging from the number of new paintings shown. At 4 o'clock Wednesday, Howard Huselton will talk informally in the Silhouette Studio about Mr Millett and his pictures, and at 4 o'clock Tuesday, April 1, Dr Nelson McCleary will give a talk there on European art and European galleries. The exhibition will be open at night.—*Kansas City Star*

This story carried a cut of "The hooked rug" which shows a porch swing where the girl is industrially making the rug, with a vista of trees and lake as background. Theta's interest is in the charming portrait of the girl, Mary Catharine Millett, the painter's daughter, an active Theta in Alpha Mu chapter.

MARION TAKES HOLLYWOOD AS THE ISRAELITES TOOK JERICHO

Little Miss Shockley, Who Didn't Even Have a Horn, Walks Around Seven Days and the Studio Walls Tumble Down for Her—She's playing Fannie Campus and Wondering What Missouri University Thetas Will Think

AND so she went on her vacation and became a movie star. When you start writing the biography of little Marion Shockley, that's the most sensational line you can put in it. It's sensational enough. A thousand extra girls in Hollywood are trying to figure how she did it, a hundred movie writers are wondering, and Marion herself is inclined to blink her eyes and ask "how come?"

Marion is the latest recruit to a distinguished Hollywood company, the "Kansas City's Own Club" of Hollywood. This includes all the persons who have been born within a several-hundred-mile radius of Kansas City, or who have lived within that area. . . .

Miss Shockley will enjoy a unique place in the "Kansas City's Own" society, inasmuch as she actually lived in Kansas City most of her life. Indeed she still regards it as her home and Hollywood as a place to spend a vacation. She still thinks she'll be coming back in about three months and she doesn't care much whether she stars in more pictures or not. She hasn't lost the "show me" attitude toward movie glories that goes with being a Missourian.

DAUGHTER OF A LAWYER HERE

Marion is the daughter of Mr and Mrs P. A. Shockley, 6437 Morningside drive. Mr Shockley is a lawyer.

Until now Marion's life work has consisted of being a Theta at the University of Missouri. As a Theta and an actual collegian, the great indignation of Marion's life has been college movies. College movies always produce a touch of nausea at colleges. Marion was one to knit her brows in the Theta living room and wonder what sort of persons made the tripe that passed for college movies down at the Hall and Columbia theaters.

Perhaps the question became maddening. At any rate this spring she started out to Hollywood and no one could have told her she would have found herself making a college movie at the end of that long, long trail. Marion went in the family car with her mother and a girl relative. She's a wee mite of a thing, the type of girl the movies always show being carried across creeks in the arms of big, strapping he-men. But if Marion is but a bit of girl she is a monument of determination. Her firm little jaw gives an indication she can do things. Most of the girls in Hollywood apply dark makeup to their second chins to give the effect of having a firm jaw line, but Marion's jaw stands right up there.

She took crossing half the continent as a matter of course. With one tiny foot jammed on the accelerator and her wide eyes fixed on the dim horizon, Marion just kept on going. There were deserts of sand and oceans of mud, a

nerve wracking trip for any three women. Mother and the relative did a bit of backseat driving.

"Once when we were going over a slippery mountain road they almost upset me," Marion says. "I yelled at them not to say another word. They just hung on till I got them down off that mountain. When we reached level ground I jammed on the brakes and had a good cry for about five minutes. Then I was all set to go on."

THE 15 MILES SHE DIDN'T DRIVE

She drove the entire distance to California, with the exception of a 15-mile detour in Kansas. That was in the spring and the detour was a sea of gumbo. Marion hung on and drove slowly. Two men in a Ford were following. Finally the second man got out of the conveyance and came splashing up to their car.

"Lady," he said, "would you mind letting me drive you into town? You've got the road blocked and I've got to get to town by night."

So Marion was a hardened adventurer by the time she reached California. Hollywood was just one more name on the road map. One of her relatives asked if she'd like to see a movie studio. She said she would. So five days after she arrived in Hollywood she went into the Metropolitan studios as a sightseer and the same day she left it as an actress.

On the first sound stage she visited was Marshall Neilan directing Alice White in a scene for "Sweethearts On Parade." Mr Neilan was in great travail, trying to produce art. Miss White was looking at him a trifle ox-eyed and struggling with what seemed to be an idea.

They distinctly heard the great Neilan say:

"I thought I'd seen some dumb ones in my time, but—"

With that he walked away from the set and sat down. Apparently he was struggling to compose himself.

Mr Neilan cast his eyes toward heaven.

Then he lowered them with a start.

Next he called an assistant director.

"Who's the cute little blonde?" he desired to know.

"You don't mean Alice White?" the assistant said and ducked.

NOT SO MUCH OF AN ASSISTANT

Assistant directors are supposed to assist directors. It wasn't long before the assistant was leading Marion Shockley before the curly-haired Irishman who had rented himself out as Miss White's temporary brains.

"How would you like to work in the picture?" Neilan said point blank.

"Oh," said little Marion, "all right, I guess—but the studio's awfully far from our apartment in Santa Monica."

Mr Neilan closed his eyes and seemed to calculate.

"It's half past three now," he said. "I don't believe we could move the studio by morning—but I'm not kidding—if you'd like to do a bit before the camera tomorrow, I'd be glad to have you."

She laughed and said, "All right."

Mr Neilan hustled away to the office of Al Christie.

"Al," he said, steadying himself on the desk, "I've just seen the strangest thing that ever was in Hollywood."

"Pull yourself together," Christie advised. "Perhaps it's just in the imagination."

"No," Neilan said, "it's a good looking girl that doesn't want to get into the movies."

"That's good," Mr Christie said.

"Wait a minute," Neilan protested. "She ought to be in. Take a look at her on the set tomorrow."

At 8:30 o'clock the next morning Miss Shockley was on hand.

"How about that dress—" Mr Neilan said. "It's pretty long."

FORGOT TO CONSULT MR CHRISTIE

"They're wearing them long," Marion piped up.

"Are they?" he responded dubiously. "I don't think Mr Christie's heard about it—he likes short dresses."

Marion smiled sweetly.

"I didn't know about Mr Christie when I bought my clothes," she said, "so I just had to follow the prevailing style. I haven't anything shorter."

"I guess," Mr Neilan said, "you'd better wear one of Alice White's dresses."

"I don't see why an extra girl should wear one of my dresses—" Miss White began.

"Hush, child," Mr Neilan said, "you wouldn't understand."

All day Marion cavorted around as a guest at a yacht party. The members of the cast were persons she had seen on the screen many times—Kenneth Thomson, Marie Prevost, Lloyd Hughes and Ray Cook.

At the end of the day Mr Neilan told her Al Christie would like to see her.

"Mr Christie isn't in," the Christie secretary, said haughtily. "He doesn't hire the extra people personally."

"He asked to see me," Marion said.

The secretary had a change of character.

"Step right in, Miss Shockley. Won't you sit down?"

Presently she was before Mr Christie.

"How would you like to be the leading woman in 'The Freshman's Goat?' " the producer began portentously.

"The what?"

"'The Freshman's Goat'—it's a college picture."

"But—you see—I've been to college—I don't believe I could qualify."

"I think," Mr Christie said, smiling, "that Nat Ross can overcome that."

NOW LITTLE FANNIE CAMPUS

"And that," says Marion Shockley, "is how I became little Fannie Campus in the movies. I'm doing all the goofy things they think undergraduates do. Our director is Nat Ross. He's about 40 years old and he's never been to college. His principal qualification for making collegiate comedies is that he's related to Carl Laemmle—of course that may be an education, but it's not a college education. All the boys are wearing balloon trousers. My acting consists of holding my eyes open very wide and looking dumb. I'm having a lot of fun, but I don't know how I'll ever face the 'Thetas.'"

That's the way Marion's taking it. She upset Hollywood. She was a leading woman seven days after she hit the place. The boy who is the villain in "The Freshman's Goat" has tried to get a part in pictures for seven years. This is his first break. If "The Freshman's Goat" succeeds the Christies will

make a series of college comedies. Marion has a good chance of being heroine for the whole series.

She's worrying about what Thetas will think—not about the movies.

After the first day's shooting, Mr Neilan went around to see his discovery.

"How about a date tonight?" he inquired.

"Oh," said Marion, "I'm not having any dates—you see I came to California for a vacation—and since I'm working all day in the movies, I couldn't think of staying out at night."

Mr Neilan looked at little Miss Shockley, who has a college education. He shook his old gray head.

"All right," he said, "but if you ever decide you'd like to dance with an old man—just let me know."

All Thetas who attended the 1928 convention at Breezy Point, will remember the beautiful, breathless, enthusiastic, smiling girl who represented Alpha Mu chapter—Marion Shockley, the "personage" of the above story. *Editor*

Rushing in New Orleans

A DINING car was the scene of one of our most attractive parties, a dining car luncheon. As we approached the car, we were dazzled by a big sign which proclaimed in brilliant letters K A Θ Special. Ushered in by four black waiters who looked suspiciously like four of our pledges, we were served a delicious lunch.

Student Loan Funds

A STUDY

THE STUDY of student loan funds has been made under three heads: the status of student loan funds; the administration of the funds; and some recommendations.

A. STATUS OF STUDENT LOAN FUNDS

Though the idea of student loans is not new, for even in the days of Chaucer the "Clerk at Oxford" sought to "get him some benefice," developments in the last decade have put the proposition on a new plane and student loan funds have assumed new proportions.

Factors that have given increased impetus to the establishment of student loan funds and have attached greater importance to their administration are (1) the increased cost of higher education with the shifting of the burden of the cost from the institution to the student, and (2) the greater number of students from lower economic levels seeking higher education.

With the growth of the movement to readjust college and university finance, the allocation of cost to society and to the student gives to the student a greater proportion than he has borne in the past. This places the burden of securing funds on the student rather than on the institution and gives the student loan funds greater importance.

On the other hand society has assumed in greater proportions the cost of secondary education, so that strata hitherto economically unable to prepare for college are given the opportunity to do so, and greater numbers of lower economic levels are seeking higher education. Again this gives greater impetus to student aid funds.

The status of student loan funds will be taken up under (1) the extent of such funds and (2) the sources.

I. Extent

The establishment of student loan funds is not peculiar to a restricted area. In Germany, France, and England as well as in the United States various organizations have been formed to administer financial help to students. The results of various surveys show student loan funds in 1928 as follows:

a. In United States (1) many colleges and universities maintain and administer student loan funds; (2) state legislatures in some states have made appropriations for loan funds to aid students in state institutions; and (3) a great number of individual funds has been estab-

lished throughout the country usually limited in scope and applicable to restricted classes.

Colleges and universities are administering large sums to student borrowers. In 1928 these funds in 135 institutions in the country totaled \$4,609,088. Of this \$944,905 was available annually to students. The largest fund in the list is \$672,814 while the smallest is \$1000. The second largest is \$454,390; the third, \$345,394. Three have more than \$200,000 and four are in the \$100,000 class. Nine have more than \$50,000, 15 more than \$25,000 and 35 more than \$10,000.

Three states, Arkansas, Michigan and Virginia, have enacted state appropriations for student loans. These funds are small with a maximum allowance of from \$75 to \$100 a year and are applicable only to students in state institutions.

Independent organizations including financial organizations, church societies, benevolent and fraternal groups, women's clubs, and foundations have made more than \$2,000,000 available annually to student borrowers.

b. In France "An Institution of honor loans" proposed by the Students national union in 1922, with the state contributing two million francs during a period of ten years, has been formed. Since its establishment 1500 honor loans of from one thousand to four thousand francs have been granted. (Report made at annual conference of International student service, Geneva, Switzerland, September, 1925.)

c. In Germany student loan organizations established in 1921 a national union forming "The loan association of German students."

d. In England "The National union of students" is carrying on student aid.

II. Sources of loans

The principal sources of loans whose funds total more than two million dollars and which are outside of college institutions themselves are as follows:

- (a) Bank and financial organization funds (13)
- (b) Church and sectarian funds (38)
- (c) Foundations (25)
- (d) Funds for foreign students (4)
- (e) Funds for designated institutions or localities (46)
- (f) Funds for individuals (2)
- (g) Funds for professional and industrial organizations (8)
- (h) National and patriotic organizations (7)
- (i) State administered funds (3)
- (j) Women's organization funds (25)
- (k) Fraternal organizations (9)

Note: College fraternities are listed as one of these nine and the following college fraternities report funds: Alpha Chi Omega, Alpha Delta Pi, Alpha Delta Theta, Alpha Epsilon Iota, Alpha Gamma Delta, Alpha Omicron Pi, Alpha Sigma Delta, Alpha Xi Delta, Beta Phi Alpha, Delta Delta Delta, Delta Gamma, Delta Psi Kappa, Delta Phi Delta, Delta Tau Delta, Delta Zeta, Gamma Epsilon Pi, Gamma Phi Beta, Kappa Alpha Theta, Kappa Delta, Kappa Kappa Gamma, Kappa Sigma, Mu Phi Epsilon, Omicron Nu, Phi Chi, Phi Delta Delta, Phi Delta Pi, Phi Epsilon Pi, Phi Kappa Psi, Phi Rho Sigma, Pi Beta Phi, Pi Lambda Phi, Sigma Alpha Epsilon, Sigma Alpha Iota, Sigma Chi, Sigma Kappa, Sigma Phi, Sigma Phi Sigma, Tau Delta Phi, Tau Kappa Epsilon, Theta Upsilon, Zeta Tau Alpha.

B. ADMINISTRATION OF STUDENT LOAN FUNDS

No definite system seems to have been evolved for the administering of student loan funds; and methods, varying from a strict business transaction with notes endorsed by responsible men such as banks would demand, to loose agreements involving no responsibility, have been employed. This variance in administration is probably due to the various lights in which a loan is regarded. Some loans are administered as reward of merit for scholastic or special attainment and the recipient regards it as a gift that is merited. Other loans are looked upon as friendly charity. The giving and receiving is known only by the parties involved and for friendship's sake the "stigma" of having to receive aid is kept secret. Again the fund is regarded as one that has cost no one anything and is supplied by those with super abundance of wealth and is to be enjoyed as long as it lasts by those to whom fate has been less kind. The method of administration recommended by those who are making a study of student loans is none of these. They recommend that loans should be made on a *business* basis with *character* as a basis of security. The details of this method will be explained later. A survey of administration reveals the following:

I. *Classes of loans*

Two classes of funds are being administered: revolving and restricted. The former involves the lending of both principal and interest; in the latter, income only is used. Institutions prefer the revolving system, the 69 votes favoring the system from the 93 institutions investigated show. But more money is invested in restricted funds an examination of 312 funds made in 1924-1925 shows. Only \$187,253 was found in revolving funds while \$704,754 was reported in restricted funds and \$3,205,786 in funds not specified but rated as restricted. In

college fraternity funds, 70 per cent are revolving; 15 per cent restricted; and 15 per cent have a special arrangement. The revolving fund is recommended as having greater efficiency in that it will help more students and will attract more money to the fund. The fear of loss can be eliminated under proper administration it is held.

II. Size of loans

Again an investigation shows a wide variance both in the amount of the loan and in the number made to one individual. The recommendation is that if a student is a good risk "see him through" and lend him enough to complete his course if this is possible, or the chances for paying the first loan will be reduced. (To be continued)

A prospectus of the winter's activities of the Panhellenic club in New York city is just at hand.

The program shows a continuance of the plan of monthly club meetings with interesting programs, dinner bridges, monthly exhibits of an artistic nature, informal teas every Sunday, contract bridge and French classes, as well as many special events for special occasions throughout the year.

All member fraternities are this year holding their meetings at the Panhellenic house, where the club's rooms are reserved for the exclusive use of individual fraternities on Tuesday evenings and Wednesday afternoons.

All fraternity women residing in New York, permanently or temporarily, are eligible to club membership, and welcome to attend all club functions. The Panhellenic house is also a comfortable, attractive hotel for fraternity women, and their friends, when spending a few days, or a month, in New York city.

The club office is open from 9 a.m. to 10 p.m. each day, and some member of the staff is always ready to answer questions from fraternity women. The office address is Room 418, Panhellenic house, No. 3, Mitchell place; the phone is "Eldorado 7300."

COLLEGE FRATERNITY EDITORS ASSOCIATION CREED

To stimulate and encourage those engaged in college fraternity journalism; to form a center for the intercourse and exchange of views of all those interested in fraternity editing; to establish a community of interest through personal contacts; to raise the standard of fraternity journalism and the excellence of fraternity publications; to publish books and periodicals helpful to members; to cooperate with the Interfraternity Conference in the dissemination of information for the good of that body and of the entire fraternity system; to discourage the publication in the press of ambiguous and injurious matter by supplying correct information; to educate the public in the character, ideals, and purpose of college fraternities and of their agent, the Interfraternity Conference; and generally to do all things that will aid in elevating our profession and tend toward an intelligent understanding of the purpose of college fraternities by the public.

Margaret Sawyer, Delta

ONE OF the biggest business women in the United States is Miss Margaret Sawyer, Delta '14, director of the educational department of the General Foods corporation, New York City.

In her work she directs a large staff which strives to help housewives everywhere make the best use of the General Foods products.

MARGARET SAWYER
Director, Educational Department
General Foods Corporation

The real magnitude of her work is better realized when it is understood that the General Foods products are those of the allied companies which manufacture most of the world's prepared foods. Companies included in the organization include Ingleheart brothers Inc. Jello company, Postum company, Calumet baking powder company, Minute tapioca sales company, Franklin baker company, Walter Baker and company, Ltd. Sanka coffee corporation, Richard Hellmann, Inc. Log cabin products company, Maxwell house products company, LaFrance manufacturing company, Diamond crystal salt company, Frosted foods company and Certo division.

Real business of her department is to teach the housewife to use the products so successfully, so easily, and in so many ways that she reaches for the package whenever she thinks of favorite dishes.

This aim is furthered in a variety of ways, Miss Sawyer explains: through women's groups of all kinds, various health organizations, home demonstration agents in every state, home service departments of public utilities companies, magazines and newspapers, home economics teachers, and the corporation's own educational field service.

Her department answers thousands of consumers' letters each day, approves recipes, tests recipes, publishes booklets, charts, posters, and food demonstration material.

Latest addition to the work of her department is its service to institutions. Large quantity recipes of the products are developed and

cooperation planned to meet special needs of restaurants, and hotels. A larger experimental kitchen has been installed for this purpose.

As an undergraduate, Miss Sawyer was president of Delta chapter and president of Women's league on the University of Illinois campus. After securing a degree in home economics at Illinois, she studied a year at the Cornell medical school under Dr Graham Lusk. For the succeeding three years she organized and developed a course for the training of dietitians at the University of Iowa.

She left this position in 1918 to go into the United States Army where she belonged to a research unit attached to the aviation corps which investigated the diet of flyers to find out whether there was any definite relation between their diet and physical condition and the altitude at which they began to lose accurate control of their planes.

From there she went to the Red Cross, as national director of nutrition service, where she was responsible for the nutrition activities undertaken by the various chapters over the country. She remained there five years and then joined the Postum company which, in the last three years through mergers, has become the General Foods corporation.

Associated with Miss Sawyer in her work is Ella Burns Myers, Delta '16.

ALUMNAE CHAPTER NEWS

Denver alumnæ: Gave many delightful rushing parties during the summer and early fall, thus helping Beta Gamma and Beta Iota pledge Denver girls. The houses of those two chapters were also beautifully refurnished under the able guidance of a Denver alumnæ committee, whose chairman was Madeline Whitney Forbes. The chapter has 60 active members, 30 inactive ones, and 40 states represented in its membership.

Bloomington alumnæ: Thetas newly resident in the city make possible maintaining the chapter, which had feared it must return to club status. A benefit bridge is to furnish the chapters contribution to the Loan and fellowship fund.

San Diego alumnæ: This chapter is sponsor to Beta Delta college chapter, has a library for the Boys and girls aid home, and is busy selling Kappa Alpha Theta bookplates. Four rush parties during the summer sent the town girls to college already interested in Theta. Theta will be hostess for the city Panhellenic this month and the entertainment will be a Greek Free-for-all.

Tulsa alumnæ: is sponsoring the plans for a new house for Beta Zeta. This chapter too helped the college chapters of the state by rush parties during the summer. A series of benefit bridge parties is planned for the winter.

The event was sponsored by the Albion Theta club. Out of town guests—Blanche Williams Aldrich and family; Susie Dean Hubbell and daughter; May Mulholland Squire and family; Nellie Adams Bender; Jane Pope Highley and family; Genevieve Ranger Moffatt and family. Three members of Beta Pi chapter were present also, Martha Farley, Margaret Traphagen, and Elizabeth Hahn.

Cornell suffered a great loss this summer in the death of two of its most distinguished faculty members: Martin Wright Sampson, head of the English department, and Anna Botsford Comstock, Iota, who was professor emerita of nature study. Mrs Comstock's death came as a blow to Iota since only last winter she presided at the scene which she wrote in the initiation ceremony.

OMICRON—UNIVERSITY OF SOUTHERN CALIFORNIA

The university opened September 15, and rushing is the only interest till Pledge day, September 29.

SIGMA—UNIVERSITY OF TORONTO

Bed-socks staged a popular come-back during Sigma's post-examination house-party, for the thermometer dropped as abruptly as it rose last year. The party was held at Island Grove on Lake Simcoe, alumnae joining undergrads over the week-end of May 24, and an average of 10 being retained for the rest of the week. The midnight symposiums on all subjects, mentionable and otherwise, have given rise to two new terms in Sigma's vocabulary—"symps" and "sympers."

Chapter activities both culminated and received new impetus at convention, for, while it was memorable in itself, it pointed the way to new development. Americans proved more real and even more charming than the wraiths of our imagination, and it was delightful to meet the Beta Upsilon delegates.

Registration starts September 27, and four days later lectures recommence. An innovation at University college is a senior-freshie house-party at the women's residences the first week-end of term. Katherine O'Brien, Katherine Crowe, Mary Wallace and Isabel Wells will be there from Sigma.

Our first rushing tea is October 7, to be followed after a week of silence by a progressive dinner-party. The later will be a geographic theme, each course to be served in the style of a different country—one of the practical suggestions received at convention. Three days of open rushing will be followed by the formal dances, and November 2 is the date of our final tea.

Mary Wallace carried off both the Aikins scholarship in English and the Elizabeth Ann Wintercorbyn scholarship in English and history of the third year, and Betty Burton the E. A. Wintercorbyn in second year modern languages. Charlotte Dinnick and Nora Doran once more tied for honors, sharing the G. H. Armstrong scholarship in Canadian history.

UPSILON—UNIVERSITY OF MINNESOTA

Radiating with new green paint in the kitchen, with new wallpaper in the dining room, and endowed by the alumnae chapter with new furniture for one of the bedrooms, Upsilon's house welcomed a record number of house girls this fall. In contrast to seven house girls last year, the house is filled to capacity with fifteen residents. Among those at the house are Mary Ellen Gray and Jeanne Kickenapp, whom we welcome from Tau, and Marion Marshall, who has returned after a year's absence. Mrs Aldrich is to continue as house mother.

Theta June graduates: Anne Weisenberger, Gertrude Mulrone, Louise Kiewel, Edith Hunter, Virginia Shepherd, Helen Halden, Mildred Shulind, Leone Kehoe. Leone graduated *magna cum laude*.

Immediately before the close of spring quarter, the chapter purchased a combination radio and victrola with the proceeds from the Theta Whirl.

Freshman week was most successful. Dorothy Jones was among those in charge of the Little Sister tea. The closing event was a *Freshman carnival*, where each men's and women's fraternity was represented by a booth. Among the "concessions" were a turtle race, a "hoop la," and "fish pond," a root beer and pretzel "bar," and a "Test your strength" machine. Theta, Kappa Kappa Gamma, and Kappa Delta were in charge of the popcorn wagon, even to its steam whistle.

ALPHA BETA—SWARTHMORE COLLEGE

It is a far cry to last spring when Kay Smedley received highest honors in history, Louise Yerkes highest honors in English and Ruth Jackson high honors in social science. All three were elected to Phi Beta Kappa. We have also three representatives on Mortar board, Carly Jackson, Be Beach and Winkles Hurlock. We won more laurels, through Beatrice Beach who received a White open scholarship and through Dilly Keller who was given one of the national scholarships to the London school of economics. Carly Jackson was elected to be the representative for Junior month in New York.

We miss our six seniors, Nancy Biddle, Catharine Hatfield, Katharine Smedley, Eleanor Jenkins, Ruth Jackson and Louise Yerkes. In addition, Mary Elizabeth Royce is spending the year at home, Jo Spaulding has transferred to University of Texas, Dilly Keller will be in London, Anne Worth is at the University of California, Virginia Merritt has transferred to Cornell, Sally Stidham is enjoying a year at Wisconsin and Mary Cookman will attend a school of design in Philadelphia.

We are just back from another splendid house-party at Elsie Powells in New York, and are in the middle of rushing. We have a new radio and victrola combination to help us and some much needed finishing touches to the bedroom.

ALPHA ETA—VANDERBILT UNIVERSITY

Alpha Eta's year began with a picnic at the home of Mrs Joe Burns, jr. Both alums and college Thetas were present, at this gathering for two purposes; first, a general reunion for every one, and second, the longed for chance to acquaint all Thetas with rushing plans and regulations.

As is customary at Vanderbilt, delayed rushing is the rule. For the first

week rushing is absolutely closed. The second week each fraternity is allowed one informal party. The third week each chapter may give a formal party.

We are extremely proud that Theta ranked third in scholarship last year: truly a step forward, since she was sixth the previous year.

We are also proud that six of our members attended convention: Rosa Parsons, Grace Daniel, Mary Doud, Hortense Ambrose, Adelaide Douglas, and Marion Hubbell. We regret that Marion Hubbell, due to ill health, was unable to return to college.

ALPHA PI—UNIVERSITY OF NORTH DAKOTA

Alpha Pi is at home in a house which although not entirely new, looks new and feels new. During the summer the house was redecorated and the living room attractively done over in Colonial style. The outside was also improved by a coat of brick veneer. The kitchen was enlarged and new quarters for the cook and maid added in the basement.

Rushing began with the Panhellenic tea September 15. Things moved pretty fast after that, because with ten national fraternities on campus and only 117 freshman girls, speed was necessary. Theta entertained rushees with the usual series of informal teas and dates and two formal parties, a Nite club and the traditional pirate party. Theta was fortunate in pledging seventeen attractive and talented girls: Mary Cummings, Dorothy Sims, East Grand Forks, Minnesota; Mary Margaret French, Eileen Benson, Beverley Hancock, Grand Forks; Edith Countryman, Grafton; Georgia Ganssle, St. Thomas; Jean Chapple, Bathgate; Margaret Shaw, Ambrose; Olivia Agneberg, Perth; Alice MacGregor, Elgin, Illinois; Jessie Campbell, Cavalier; Bernice Anderson, Ray; Marie Furon, Ellendale; Irma Carstens, Fargo; Marion Stephens, Crookston, Minnesota; Winifred Blair, Churches Ferry. It was Alpha Pi's distinction and great pleasure to include among pledges its first Theta daughter, Georgia Ganssle, daughter of one of our charter members. She is the first daughter from any chapter on this campus to pledge to a fraternity.

Alpha Pi was delighted and a bit surprised when scholarship reports for last semester gave Theta first place among groups on campus. This makes the second consecutive semester Theta has won the Panhellenic and university scholarship cups, so if the chapter can win this semester, they will be Thetas permanently.

A third Theta has been added to the University of North Dakota faculty, Vera Bollinger, as instructor in the public speaking department.

At the convention in Toronto, Alpha Tau was distinguished by having the largest representation, seventeen attending. Fourteen Alpha Taus enjoyed ten days at Ballantynes' Camp, Long Point, Michigan; following convention.

Mary Beresford was one of six Thetas at Y.W.C.A. conference at Geneva, Wisconsin.

Alpha Tau is proud that all but two members returned to the university: Virginia Maxwell is enrolled at Wellesley and Sarah Frances Newman is at Kentucky State. After a year's absence, Virginia George has returned to college.

Rushing dates are one week before, and three weeks after, the opening of Liberal arts college. Alpha Tau's first party was an Apache party at the home of Caroline Miller, September 18. This was followed by serenading. September 21 a swimming party and bridge was given at the home of Dorothy Runk. September 29 a bridge party was given at the new home of Erma Pfleger Farrell. Several Thetas and rushees went swimming in Dorothy Runk's pool before coming to the bridge. The night of September 27 was the first football game, around which Alpha Tau wove a rush party. Preceding the game, a tea room, where food and entertainment were provided, formed the first part of the novel party. Dates for the game were provided for the rush girls. After the game every one returned to the tea room to dance. October 8 is the night for our formal rush party which, as usual, will be a progressive dinner. Pledging will take place October 10.

MARY BERESFORD

ALPHA UPSILON—WASHBURN COLLEGE

Entertaining in our charmingly redecorated house, we found the rushing season a pleasure, for Topeka alumnæ had taken charge during the summer, and much improved the house.

After the rush, at Open house night, we had an especially good time with many alumnæ back to meet the pledges—Eleanor Cooke, Virginia Crosby, Madeline Daniel, Jean Gibbs, Doris Luellen (sister of Jette Lee) Mariam McKee (sister of Helen McKee Allen) Carol Montgomery, and Peggy Strawn, all of Topeka; Mary Benton, Oberlin; Betty Cambern, Fredonia; Virginia Carr, Wellington; Mary Jane Jones, Olathe; Naomi Ramsey (sister of Mary Ramsey Chase) Osage City; and Nan Lou Sheets, Brookfield, Missouri. Ruth Carman, Iota, was the guest of Doris Kistler during rush week.

We lost Sarah Ewart, who is attending the University of Texas, Winifred Kirkpatrick, who is attending the University of Kansas; Jette Lee Luellen to the University of Wisconsin, and Harriet Perry to Oberlin college. By graduation we lost Katherine Reed, Margaret Soller, and Elizabeth Newby.

Plans are being made for our first party to be given in October. Usually we have a chicken-fry in the fall, but this year plan to have a barn dance, for generally on days chosen for chicken-fries it pours, so we plan a rain or shine party—inside, sport clothes, box lunches.

BETA MU—UNIVERSITY OF NEVADA

Beta Mu is happily settled in the new chapter house, purchased last spring. During the summer, remodeling and furnishing were supervised by Mrs Walter Clark, together with Reno alumnae, so we might move into the house at the opening of college. The furnishings are typically peasant style throughout. One of the most delightful rooms is the one for the use of town girls, attractive with its wicker furniture and bright chintz draperies and pillows.

A successful rushing season ended September 5 with the pledging of Elizabeth Carpenter, Beatrice Patterson and Hannah Peterson (graduate student from Mills college.) The rushing season was limited to two parties by each fraternity,

due to the small number of girls eligible for rushing. Our parties were, a breakfast cleverly carried out in peasant style, and an informal dinner with music and entertainers.

Home-coming is October 25, and plans for the Theta float and Wolves Frolic act are underway.

BETA NU—FLORIDA STATE COLLEGE FOR WOMEN

Several alumnæ came back to help with rushing: Among them, Ruth Rigby, Flivver Walton Little (Mrs Robert) and Connie Seybold, all from Miami; and Tony DeMeritt Moore (Mrs Alvin).

Alumnæ Thetas in Tallahassee have formed a club, which plans to hold its meetings at the chapter house. BETA XI—UNIVERSITY OF CALIFORNIA AT LOS ANGELES

The five day rush was particularly strenuous, as Beta Xi's new home is not yet completed. Lunch was at the Bel-Air Country club, while tea and dinner

were at the homes of different members. September 22 Edith Arnold, Betty Lee Brady, Marion Davies, Norma E. Hassler, Abigail Lambrecht (sister of Virginia) Olivia Redwine, Ruth Russell, Edmee Shonnard, Marjorie Townsend, Alice Walter, Jean Adair Willard, Jessie Willock, and Adele Zerweck were pledged.

Because of graduation we miss Oakalla Bellis, Juana Burgher, Alice Cooper, Dorothy Grannis, Elizabeth Heineman, Alice Kelly, Alice Turner, and Laura Whiley. Hazel Sewell and Sarah Schwartz because of illness did not return, nor did Mary Patten and Marian C. Thomas who are traveling.

Every one is intensely excited over the prospect of living in the new chapter house, which will be ready for occupancy about October 15. Due to the untiring efforts of the building committee, the house seems complete in every respect.

Sally Sedgwick, as vice-president of Associated students, holds one of the highest possible offices in the university. Virginia Lambrecht is treasurer of Associated women students; Betty Prettyman, secretary of the sophomore class; and Mary Heineman, associate editor of the year book.

Sigma Nu and Phi Kappa Psi are soon to install chapters on campus.

BETA PI—MICHIGAN STATE COLLEGE

Beta Pi is occupying a new home, a nice house, somewhat nearer to the campus than the former one. Plans had been to build a new house to be occupied at Christmas time, but it will not be ready until later, so the present residence is quite temporary.

Graduates last June, Margaret Yerex, Marguerite Clark, and Helen Murdock. Lena Lou Hunt, Alice Bender, did not return to college this fall, while Elizabeth Foster transferred to Detroit city college, Maxine MacNames to Battle Creek college.

Classes did not begin until September 29, so, rushing is late also, and pledges have not been made.

Gertrude Smeenge will be initiated in October.

We are proud of Martha Farley, who, as president of A.W.S. is living in the Women's building to help organize the freshman girls.

Something new in rushing is being tried this fall. The first Sunday of rushing was an open house in all the women's fraternity houses. Freshman girls went from one house to another in groups of twenty or thirty. It afforded an opportunity for the houses to meet interesting and desirable girls who had not been recommended already.

Themian society has been granted a charter by Kappa Kappa Gamma.

BETA RHO—DUKE UNIVERSITY

Beta Rho was honored by a visit from Mrs Banta April 7-8. The chapter entertained for her at a lovely tea. She was also the honoree at several social functions given by other fraternities on campus.

Graduation claimed six of our members—Elizabeth MacFayden, *Magna cum laude*, Peggy Lavinder, Mary Frances Rodwell, Julia Leggette, Alyse Smith, Hal

Grimes. Elizabeth MacFayden however is returning to do graduate work, also serving as an assistant in history.

Mary Brown and Lottie Markham Hundley attended convention and returned with renewed enthusiasm and an abundance of new and clever suggestions for the chapter.

Thirteen active members, three alumnae, and one pledge, enjoyed a most delightful house-party August 5-11 at Norma Louise Craft's home on Wrightsville Sound. During our stay we enjoyed surf bathing, boating (taking the river trip from Wilmington to Southport) and a lovely bridge party at the home of Mrs Burton Meyers, Beta Beta.

Eighteen anxious Thetas returned to college refreshed by the house-party and thrilled over the prospects of the opening of the Coordinate college for women of Duke university. As a result of the women's moving into the dormitories formerly occupied by the men, the problem of furnishing a new chapter room confronted Beta Rho. Margaret Landis was chairman of the furnishings committee, and filled the position excellently, so is responsible for a most attractive and artistic chapter room in green and gold.

Bennie Purvis was initiated September 25.

Closed rushing began September 24 and continued until September 29. Open rushing begins September 29 and comes to a close October 8. Bids will be issued October 9.

New Panhellenic rules limited the cost of rushing, but with the help of Dallas alumnae we gave several attractive parties—a carnival, a theater party, a Bohemian studio party, and a cabaret. Open house honoring new pledges was the night of September 26.

We are sorry to lose Sara Clark, Elizabeth Connell, Willette Jarrell, Mary Jane Kinsell, Helen McEacherin, Etoile McFadden and Bertha Olmstead, but glad to have Christine Chitwood and Madeline Roach back.

Honors: Beta Sigma jumped ten places, for fourth place in scholarship on S.M.U. campus the last semester of last year.

The 1930 yearbook carried Claudia Heard's picture as one of the five school beauties.

*Gifts to the S-I-L-V-E-R S-H-O-W-E-R may swell the Theta
Phi Beta Kappa list next spring*

June Anderson, pledge, has the feminine lead in the opening Dallas Little Theater play.

BETA UPSILON—UNIVERSITY OF BRITISH COLUMBIA

Since nearly the entire chapter were out of town this summer, activities were decidedly limited. May 6 the annual banquet for graduating Thetas took place at the Hotel Georgia, and brought back vivid memories of our installation. Two fairly successful rushing parties were arranged on May 9 and May 16. We went to Marjorie Greenwood's summer camp at Whiterock, and then motored to Bellingham. Sorority camp lasted from May 23 to June 4 and was ever so much fun. Later in June we had another rushing party—badminton at Bebe Stewart's; and in August a Bonfire party at the end of the month. Early in September we arranged a miniature golf party and a tea afterwards. Our last formal affair is to be a progressive dinner and bridge on September 26. All responsibilities for the final rush, October 1, have been taken by the alumnae. The affair is still a very dark mystery to us, but promises to be one of the most exciting of the year.

The rushing situation is rather unfortunate—a great many of last year's most promising freshmen still have units to complete their first years, and so must be considered as freshmen again. Consequently the number of rushees is depressingly small, especially since it must be divided among six fraternities. Bidding is earlier this year—October 6, and the whole campus is in a state of hectic suspense.

We are continuing the exchange suppers originated on this campus last year by Kappa Alpha Theta.

Katherine Lee is the proud possessor of the scholarship ring presented last year by alumnae. She also received the University scholarship for the highest average in sophomore year.

Undergraduate loans: For information regarding undergrad-
uate loans, and application blanks, address the corresponding
secretary, Helen Pratt.

Graduate grants: For information regarding fellowships,
address Washington, D.C. alumnæ chapter.

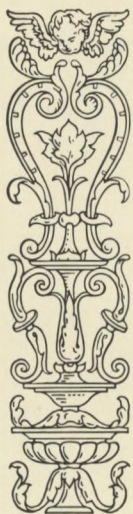

Loans are made for \$50 and larger amounts. Interest is 4
per cent payable annually. Security is required, i.e. endorsement
of note by two financially responsible parties. Loans are payable
within two years after the beneficiary has left college. Payments
may be made in monthly installments. A personal letter explain-
ing fully any unusual circumstances will greatly assist the commit-
tee in a prompt consideration of an application for a loan.

All checks, whether for interest, loans, or gifts to the Fund,
should be made payable to Los Angeles alumnæ of Kappa Alpha
Theta and sent to the Financial secretary, Miss Ray Hanna, 3718
W. 21st st. Los Angeles, Calif.

A gift to the Fund is a gift to Kappa Alpha Theta in per-
petuity. It is never spent; it will come in and go out innumerable
times; and its value to the present and future members and to
the fraternity as a whole is incalculable.

RECOMMENDED HOTELS

ALUMNÆ chapters recommend these hotels or clubs throughout the United States for the use of traveling Thetas. In these hotels a register or index of the Thetas resident in those cities is maintained, such register being available for use by fraternity guests. We trust that our members will avail themselves of the plan, will find the recommended hotels satisfactory, and the plan will bring Thetas together to their mutual satisfaction and enjoyment.
